

PIERRE KUNZ
GENEVE

O001 SR Belle Epoque

Pierre Kunz presents timelessness in pure Art Deco style.

A classic timekeeper in grey gold, 5N red gold or platinum showing the hours, minutes and retrograde seconds at 6 o'clock.

A geometrical silver-plated or black galvanic dial with fine-brushed sun decoration as the sole aesthetic artifice.

The design is reminiscent of the Belle Epoque period. Hands, retrograde zone and structure of the numerals created in the architectural spirit of the famous New York Chrysler building.

Belle Epoque
